## Technical Data Sheet

### Product Description

MQ84 (Blue) and MQ85 (Clear) are unique low temperature cooking materials intended for use in the meat processing industry. They offer good physical and barrier properties and are available in a variety of widths and gauges.

<b>Properties</b>	<b>Values</b>	<b>Test Methods</b>
General: Thickness (mil)	2.00	ASTM D5947
Fisher Jones Melt Point	260°F	ASTM D2117
Mechanical: Tensile Strength (psi) Elongation, %	8000 – 9000 300 - 500	ASTM D882 ASTM D882
Water Vapor Transmission Rate (grams/100 sq.in./day) 100° F, 100% RH	0.8	ASTM F1249

#### *Notice*

*The values presented in this data sheet are typical values based on the thickness of the film and should not to be interpreted as product specifications. The statements, information and data given are believed to be accurate and reliable, but are presented without guarantee, warranty or responsibility of any kind, expressed or implied. Since the actual conditions of use and the specific uses of our products are beyond our control, all risks of such use are assumed by the user. The use of this product should be tested fully by the user in the specific application to determine fitness for use.*
